**Miscellaneous**

**Shelton Chamber:**

On Oct. 5<sup>th</sup>, I had an opportunity to meet with the Governmental Affairs Committee of the Shelton Chamber of Commerce to provide an update on the status and plans for Mason Health. They were very complimentary of Mason Health helping the community through this pandemic. They also expressed strong enthusiasm for our plans around evolving the Health Science Academy to become a pipeline for future nurses and MAs.

**COO**

As we begin the renovation and construction of the Patient Access Center and Rehabilitation Services within the former Shelton Family Medicine building, we are looking to form a

Construction Committee to receive periodic updates and provide feedback to OAC and Skanska. This will be similar to the Committee that was in place during the construction of Mason Clinic, however on a much smaller scale. This Committee will keep the Board of Commissioners updated monthly and would welcome Board of Commissioner representation on this Committee. Mason's participants will represent Facilities, IT, Operations, The Patient Access Center, Rehabilitation Services and Finance.

### **CNO**

'Vaccine mandate' update as of 10/6/21: 72 total exemption requests, 58 approved, 8 pending, 4 denials/appeals, 1 approved resigned and 1 approved began her vaccine series. 622/740 vaccinated= 84%

46 staff without requests in and/or vaccinations.

Staffing: 3 open CNA positions, 0.9 Resource RN, 0.6FTE nights house supervisor, 0.9FTE nightshift MSP openings. We have an offer out to a RT Director and are awaiting her decision. I continue to work on the framework for our health science academy framework.

DNV plans of action were submitted to DNV on 10/7/21. All departments who had a non-conformity have provided related action plans, including dates, etc. Some are already completed and all have begun improving the process.

Finishing touches to the ED post transitional service is being done. Expected Go-Live November 1<sup>st</sup>. We should have reporting by mid-December on number of referrals to Behavioral Health, # follow up appts, and patient experience data.

Capacity- we continue to be over capacity on MSP. RN's have been working over their RN:patient ratios for several weeks. Morale continues to be stable. We have continued to do outpatient surgeries but remain closed to inpatient surgeries other than emergent.

### **Credentialing**
