THE ABCS OF HEALTH INSURANCE

Even if you are in good health you will need to use the health care system at some point in your life.

You never know when an accident may happen or when you will get sick and need to see a doctor. Health insurance provides you with an affordable way to get medical care.

DO YOU QUALIFY?

Medicaid/Apple Health Coverage

You may qualify for FREE Washington Apple Health if you meet the following criteria:

- You meet income requirements.
- You are under 65.
- You are a US citizen or have Permanent Resident status or have Asylum/Refugee status. (These are waived if you are pregnant or under the age of 19).
- You may enroll 12 months out of the year.

Medicare Coverage

Medicare Part A coverage is automatic through the federal government, while Medicare Part B coverage is optional and includes a premium. If you need help covering the cost of Medicare Part B coverage, visit www.washingtonconnection.org or call the Department of Social and Health Services at 1-877-501-2233.

AT MASON HEALTH WE ARE HAPPY TO HELP!

If you do not qualify for FREE insurance, you may be able to purchase a plan. Visit www.wahealthplanfinder.org to find a plan or contact Mason Health's Patient Financial Advocates for assistance.
