

Darrin J. Trask, M.D.

Born in Olympia and raised in Aberdeen, his areas of interest are primary hip and knee replacement, robotic assisted total joint replacement, direct anterior and minimally-invasive posterior hip replacement, revision hip and knee replacement. His hobbies include spending time with his wife, Christine and his 3 children, enjoying outdoor activities and spending time out on the Washington coast. He enjoys watching the Seattle Seahawks and the WSU Cougars, his alma mater. Dr. Trask is grateful to raise his family around the community he grew up with along with his family and friends.
