

Andrew Manista, M.D.

Back, General Orthopaedics, Neck,
Pediatric Spine, Spine, Trauma

Welcome to Olympia Orthopaedic Associates

I am fellowship-trained and board-certified, and I specialize in complex surgery of the spine using the most advanced evidence-based methods and techniques. I chose to pursue medicine and the orthopaedic spine specialty because I had several inspirational teachers, and I wanted ample opportunity to help others. It is my goal as an orthopaedic spine surgeon to solve complex problems that cause patients pain and limitation in order to make a big difference in their lives.

I have extensive experience performing a variety of complex spine procedures, including robotic-assisted spinal surgery, neck surgery and disc replacements, laminoplasty, lumbar surgery from multiple approaches, and scoliosis correction. I love using my advanced training to help people get back to the life they would like to lead.

Please let me know if there is anything my staff and I can do to improve your experience at Olympia Orthopaedic Associates.

I look forward to meeting with you!

Sincerely,

Andrew Manista, M.D.

Andrew Manista, M.D.

What to Expect

My staff and I understand that your time is valuable, and we appreciate your understanding and patience if we keep you waiting. In some cases, patients require special attention, or I may be asked to assess a serious injury. However, be assured that I will make every effort to see you as soon as possible.
